*Proposed: That the State consider appropriate legislation to ensure the transparency to consumers of the information held by entities about them and how it is used, the right of consumers to inspect, correct and delete such data, and their right to opt out of the sale of data to third parties. (Replaces 2017 Recommendation 3).*

There were no objections to the recommendation which is similar to one already on record concerning data brokers. Mr. Lore mentioned that it will be instructive to watch the first enforcement of
